ComS 363 Fall 2022
Class Participation for Week 7

Topics: Review SQL exam questions

Instruction:

Execute GenerateKitchenDB-exam.sql in MySQL workbench to generate the database for Exam 1 Question 1.

Submit <netid>mysolutionExam1.sql where <netid> is replaced by your IA STATE netid. In this file, include the solution you provided for the exam questions 1.a to 1.e and 1.g-1.h. If the solution does not work, fix them so that they give the correct results. If you find that your original solution without major modification works correctly, but you did not get a full credit for the question, visit the instructor no later than 5pm of Thursday October 13, 2022.
